MUHAMMAD ILFANZA MUSTAFAVI

+62895800096363 | ilfanzamustafavi@gmail.com | www.linkedin.com/in/ilfanza

I am an UI/UX design, website developer, React and Next.JS pecialist. I am enthusiastic about learning, adapt quickly, and enjoy applying theoretical knowledge to practical projects. This portfolio showcases several projects I've completed during my studies, demonstrating my ability to design application and website interfaces using Figma, along with coding skills in HTML, CSS, and JavaScript. I am ready for new challenges and opportunities to grow!

Work Experiences

PT Brainlens Rekayasa Konsultan - Tangerang Selatan, Indonesia   Aug 2024 - Oct 2024
Full Stack Developer Internship

- Conducted analysis and designed website system architecture.
- Designed website interfaces using Figma.
- Developed the front-end of websites using the Next.js framework.
- Designed databases using Supabase.
- Developed the back-end of websites using Next.js.

Global Jaya School - Tangerang Selatan, Indonesia   Jul 2023 - Aug 2023
IT Support Internship

- Performed Windows operating system reinstallations.
- Performed Mac operating system (macOS) reinstallations.
- Installed CCTV systems and integrated them into software.
- Created private servers using IBM systems.

Be Hope Group - Tangerang Selatan, Indonesia   Jan 2024 - Jun 2024
UI/UX Designer

Developed a security application for residents in the Kasuari resident Bintaro Sector 9, working as a member of the UI/UX design team to create an efficient and user-friendly security app interface.

Be Hope Group - Tangerang Selatan, Indonesia   Oct 2024 - Jan 2025
UI/UX Designer

Creating the website interface design for the Parama Studio company profile, as well as designing the interface for the school yearbook order management system.

Education Level

Universitas Pembangunan Jaya - Tangerang Selatan, Indonesia   Aug 2021 - Sep 2025 (Expected)
Bachelor of Computer, 3.45 / 4.00

As an Informatics graduate from Universitas Pembangunan Jaya, I have developed a strong foundation in software engineering through a series of practical projects. Key skills honed include Java-based application development (OOP), Python (Image Processing, Machine Learning with MobileNetV2), and full-stack web development (HTML, CSS, JavaScript, PHP) for systems such as hotel booking and e-commerce. These projects demonstrate capabilities in analysis, design, and implementation of technology solutions.

Organisational Experience

Himpunan Mahasiswa Informatika - Tangerang Selatan, Indonesia   Jul 2022 - Jun 2023
Member of the public relations

Served as a team member in the Public Relations Division of the Department of Communication and Information (KOMINFO), contributing to effective communication strategies and public outreach initiatives.

Himpunan Mahasiswa Informatika - Tangerang Selatan, Indonesia   Jul 2023 - Aug 2024
Deputy chairman for administration

Served as the Deputy Chairman for Administration in the Informatics Student Association, overseeing administrative functions and supporting organizational efficiency.

Himpunan Mahasiswa Informatika - Universitas Pembangunan Jaya   Dec 2023
Event coordinator

Served as Event Coordinator for an International Webinar on The Future Unveiled IoT and AI in Perfect Harmony. The event was held in a hybrid at Universitas Pembangunan Jaya and Webex the online meeting platform.
